TABLE OF CONTENTS

## FMG Textiles

p. 4-99

The FMG Collection includes a wide range of high quality products for the marine industry: covermaking textiles, interior and exterior upholstery, wall panelling etc. A comprehensive range of technical fabrics to offer the best in terms of texture, colours and aesthetics to luxury yachts for interior and exterior furnishings and styling. Artitex® Contemporary Décor is the new development to meet the requests of boat owners and designers in terms of luxury and exclusivity. (\*)

## FMG Technologies

p. 100-105

Hull design software, panel design software and fabric cutting systems for marine fabrics, sails, furnishing and tailoring, glueing and sealing systems: FMG Technologies's proposals are derived from our knowledge of the hardware/software taking into account every customer's project and production needs.

New solutions for textile production, aimed at satisfying the real needs of those who touch the fabrics every day, giving assistance when needed.

## Terms & Conditions of Sale

p. 106-107

Note (\*): for a user friendly application of the Textiles section of our catalogue we recommend that you visit our online shop at the following address: <http://www.fmgshop.com>. Via our online showroom it is also possible to evaluate the technical characteristics of the product and to experience the whole range of FMG colours .

Please note that colours are not 100% accurate via a computer's graphical output and can vary depending on the output of monitor used. The accuracy of the original colour cannot therefore be 100% matched to the original via your monitor. Therefore we invite you to contact our customer care department to arrange a visit by one of our skilled representatives or alternatively to ask us to send you some samples with reference numbers.
